

**THE VETERINARY
HEALTH INNOVATION
ENGINE**

—

Creating a buzz in
the world of
animal health

ZOETIS CENTRE FOR
DIGITAL INNOVATION

BRIDGING THE DIVIDE BETWEEN THE COMMERCIAL AND ACADEMIC

We bridge the technology readiness level gap between the world's leaders in animal health while leading in the development of transformational digital and data analytics tools to advance the wellbeing of animals for the benefit of society.

SERVICES

Platform and App Creation

We develop digital technology platforms and applications that serve a wide variety of user needs

Business Insights

State-of-the-art data visualisation techniques to extrapolate business critical insights from multiple streams of data

Research Validation

We provide a link between the University and the external commercial sector to validate new research

Data Storage

We collect and store unique animal health data to create and deliver new evidence for decision-makers

Grant Funding Assistance

We write grant applications with our commercial and institutional partners to create meaningful research

Project Management

vHive delivers initiative management for academic and commercial projects from concept through to delivery

PARTNERSHIPS

Looking for a dynamic research partner to validate your software / hardware data or to take your business to the next level?
